

Tabset: Main

This demonstration tabset contains a variety of tabs that could be used to capture information about a variety of important items. View each of the tabs to see how the RecordsKeeper can be custom tailored to help you capture information for just about anything you may want to keep a record of.

Tab: Electronic Assets

This tab records information about electronic assets and gadgets that are not described as part of the 'Real Estate' category, either because they are portable or because the information about them is more specific. Model and serial numbers, important parts, service and warranty arrangements, manufacturer and purpose are all types of information that can be captured. User and reference manuals that are available electronically can also be stored or referenced so that they are readily available.

Type of gadget:	Laptop PC	Record #: 1
Manufacturer:	HP Compaq CQ70-134CA	
Serial Number:	2CE8687JT4
