## *Tabset: Main*

This demonstration tabset contains a variety of tabs that could be used to capture information about a variety of important items. View each of the tabs to see how the RecordsKeeper can be custom tailored to help you capture information for just about anything you may want to keep a record of.

---

## *Tab: Software Licenses*

This tab demonstrates how to capture information about software licenses. The information might include the supplier, the name and version numbers, where the software (downloadable source and execution libraries) is located on your computer, the way updates are provided, license terms, user manuals and various other bits of information that may be relevant.
